

STATEMENT OF PURPOSE

RS18564

Currently, persons who are required to register as sexual offenders must list their address or a description of where they are living. However, many of those who have a transient status do not have a physical address, nor do they have a mailing address. This will allow law enforcement to track the location of these individuals until they are able to establish a residence with a physical address.

FISCAL NOTE

There will be a slight cost to develop and print the forms necessary, as well as some additional cost associated for sheriffs to verify the location where a transient is living.
